

VOLTAGE

The **Triton series** offers the same legendary Voltage durability and luxury you expect but wrapped inside a more economical platform. Standard features flourish on the Triton, such as king-size beds, a 5500-watt generator, large holding tanks, and luxury living area amenities that make Triton the unmatched leader in value-oriented toy haulers.

Features in Triton and Voltage

- **King Bed Standard On All 5th Wheel Floorplans** - greeting weary travelers after a long day on the road, that's exactly what Dutchmen owners can expect. Comes standard on all fifth wheel floorplans.
- **KeyTV** - functions as the "brain" of the system into which you plug the satellite feeds. The roof mounted antenna is already pre-wired into the system. KeyTV identifies over-the-air, cable and satellite signals and sends each signal to the TV outlets located throughout the RV.

- 3 Radiant Insulation
- 4 Darco Moisture Barrier
- 5 Steel powder coated main I-Beam Frame

MORE STANDARD FEATURES MORE VALUE

Dutchmen RVs turn more heads on the lot and in the campground than any other. Why? While other manufacturers offer features as options, Dutchmen tends to make those same features standard. Call it "bang for the buck," "more for your money," or simply "more value." **We've built a reputation for bringing RV owners more standard features for less money for more than 25 years . . . and it's a reputation we plan to keep.**

100% PRE-DELIVERY INSPECTION

At Dutchmen, quality is standard. Every single Dutchmen RV that comes off the line receives it's own pre-delivery inspection. Every unit undergoes a thorough 253-point check to ensure accurate measurements, fully-functional electronics and components.

THE INDUSTRY'S BEST RV WARRANTY

With this industry-best warranty, we take the guessing game out of what is and isn't covered. So, that means you don't have to wrangle over the details, because we deliver value by clearly outlining the major components we back during the first three years.

THE LEADER IN PARTS AND SERVICE

Replacement parts. Routine checkups. Expert advice. You name it and we've got it covered. When only the best RV services will suffice, our industry-leading parts and service department is ready to help you get back on the road - and stay there longer than ever before.

*Length is defined as the distance from the centerline of hitch pin/coupler to rear bumper of trailer. **Our weights represent how most units are built, inclusive of many commonly-ordered options. ***Fresh water capacity includes water heater capacity.
